Category:		Estimated time:	0.00 hour
Description			
PSS Dryer 1: Unimac Model number: ???, Serial Number: ??			
WI Dryer SSN and Model -??			

History

#1 - 08/14/2026 09:32 AM - Stu N

- Subject changed from WASHER/DRYER FOR PSS AND WI to DRYER FOR PSS AND WI - Unimacs
- Description updated

Spare Motor:
Alliance #M4834P3 Dryer KIT MOTOR REPLACEMENT (AL-M4834P3) - \$1.1k.
Wyatt thought MOTOR was bad, but it was only the capacitor that needed to be replaced - so that part was bought direct from Amazon. Alliance (where we did the motor order on June 2026 for W1), refused to take the return even though part was never used and 100% intact with the capacitor. We did discover this motor will also work with BOTH dryers at PSS. Motor's current location: WI Front Desk

Should it be helpful, this is the exact model and serial of the pss dryer 1 motor for pss dryer 1 that is currently operating: M409439, SERIAL NUMBER I14K110035; they are compatible with Alliance M4834P3 Dryer KIT. The attached photo is the dryer that's from PSS
