Description Not certain if worth repairing, but documenting issues just in case we ever get to this topic: Soda: Water, Gatorade, Monster slots - none work Unable to take coins Not cold enough Chips: eats cash all the time - esp if u do a selection soon after inserting cash when doing selections, "7" doesn't always work MOst new units are upwards of \$3k. Could contract out for nice new machines, but we would get no access and barely enough income to run the power.
